

EMERGENCY SPINAL SURGERY - RAMESH KUMAR

PATIENT INFORMATION

Patient Name:	Ramesh Kumar
Age:	45 years
Treating Hospital:	Christian Medical College (CMC), Vellore
Primary Diagnosis:	L4-L5 Disc Herniation with Spinal Cord Compression — Emergency Decompression Surgery
Attending Physician:	Dr. Anita Verma, MD (Neurosurgery)
Medical Reg. No.:	MCI-2018-TN-05521
Estimated Cost:	₹18,75,000
Document Date:	20 Feb 2024

MEDICAL SUMMARY & CASE OVERVIEW

Ramesh Kumar, 45, experienced a severe workplace accident resulting in critical compression of the spinal cord at L4-L5. He is currently experiencing lower limb weakness and impaired bladder control — early signs of permanent paralysis.

Emergency decompression surgery must be performed within 14 days to prevent irreversible neurological damage. Delay beyond this window dramatically reduces the likelihood of full functional recovery.

Ramesh is a factory worker with no health insurance. His wife and elderly parents depend entirely on his income. The family cannot fund the surgery without help.
